rat killing simulator. the game is too heavily weighted against the player, bad things happen often good things rarely I hope the devs balance it more because the concept is good. Complete Rng bull that ruins the game, unless you get a good start you will lose and Exp does not matter since you always need to spend it just to use abilities.. Very good game. Kill rats, drink beer (irl), kill some more rats and drink more beer. Die and do it all over again.. Either I'm just not good at it, or it's real tough, but it's hard. And I love it.. But. but.
